Visit us on the Web at:
www.PowerPlantPro.com

PowerPlantPro is one of the most established online recruiting job boards dedicated to the Power Industry. Thousands of power plant professionals visit our site every week seeking renewable and traditional jobs in all areas of the power and energy industry. Advanced new features provide each of your jobs with its own webpage thereby increasing traffic from Google and other leading search engines. This is in addition to a multi-layer marketing and technology effort increases the number of candidates that see your positions.

Job Posting

Posting a new job and tracking applicants is as easy as 1 2, 3. First select an employer plan, enter the job, then just review applicants with a simple and easy to use applicant tracking system. You will receive an email when an applicant applies for your job or use your site for applicants.

Resume Search

The PowerPlantPro search engine allows a structured search by skills, geography or experience. Or you may prefer a keyword search for more flexibility.

Advertising

Three forms of advertising are offered including; featured employers, featured jobs and listings. A typical featured employer banner linking back to your site would be in the format below.

Fig 1: Banner adv.

Pricing

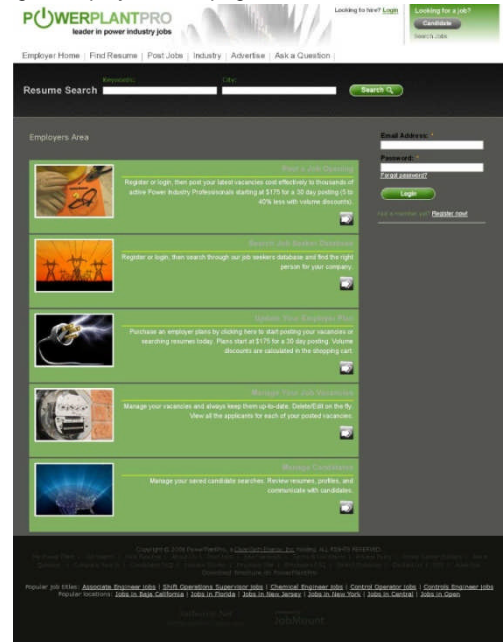

Job postings start at \$175 per post with discounts of up to 60% for multiple listings. An unlimited postings option is available if you hire more than 50 people/mo.
